Parent Advocacy Day

For parents like me and you. Please join us this fall for an informative day at the State House. The day will include a tour with visits and in depth discussions with State Representatives and Senators. Learn how important your voice is in forming bills and creating change. Hear about some bills that are happening in the state that affect you and your family. Learn about the many different ways you can be involved. This is a great opportunity to build confidence and become an even better advocate for your family and those in your community.

(Includes light refreshments and box lunch)

Space will be limited to 60 participants

FREE
